## **Boards Equipment**

### **Ultrasonic Devices**

All dental operatories are able to operate piezo or magnetostrictive units. If you choose to rent an ultrasonic device for your examination, please note that there is no guarantee as to which you will receive as they are dependent upon the operatory that is assigned to you. Please familiarize yourself with the application, limitations, and restrictions of both technologies prior to your arrival to the examination site.

If you choose to bring your own ultrasonic unit, please confirm the compatibility with our operatories. Our water pressure range is 25-40 psi, water bottle pressure is 35 psi, and air pressure is 80 psi.

The piezo units we currently utilize are the Ultradent Ultrawave XS and the magnetostrictive units are Acclean Ultrasonic Scalers, Hu-Friedy Swerv3 30K, or Acclean Pro 30K. The rental of an ultrasonic device includes the insert.

### **Instruments**

Please bring your instruments and back-up instruments with you to the testing site. If a candidate breaks a tip of an instrument, LCCTC does not have replacement instruments.

**Responsibility**

Inadvertent damage or perceived damage to any personal items, instruments, ultrasonics, or other items that the candidate is seeking help with is the sole responsibility of the candidate.

**Exam Room Assignments**

NOTE: See official CDCA-WREB-CITA documents for days, dates, and times

**Good luck on your examination!**
